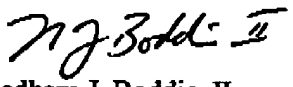
REMARKS

The present Amendment After Allowance is being filed to correct a technical error in independent Claim 1 that was noted upon review of the allowed claims. In particular, Claim 1 has been amended to recite that the plunger is moved to an extended position upon the "flow of air into the plunger housing internal bore via the plunger housing first opening." The previous recitation of how the plunger is moved to an extended position, while technically correct, was awkward and may have been difficult for a reader to understand.

Applicant apologizes that this error did not come to Applicant's attention prior to issuance of the Notice of Allowance. Applicant respectfully requests entry of this Amendment After Allowance and passing the application to issue.

Respectfully submitted,



Needham J. Boddie, II
Attorney for Applicant
